

Project Design Phase-II
Solution Requirements (Functional & Non-functional)

Date	30 June 2026
Roll Number	23A51A0526
Project Name	Laptop Request Process
Maximum Marks	

Functional Requirements :

Requirement ID	Functional Requirement	Description
FR-1	Submit Laptop Request	Employees can submit laptop requests through the Service Catalog.
FR-2	Capture Request Details	System captures Laptop Type and Business Justification through catalog variables.
FR-3	Approval Workflow	Requests are automatically sent to the employee's manager for approval before processing.
FR-4	Task Generation	Upon approval, the system auto-generates a catalog task for the IT fulfillment team.
FR-5	Email Notifications	The system sends email notifications for submission, approval/rejection, and fulfillment status.
FR-6	Request Tracking	Employees can view the current status of their submitted requests in the portal.

Non-Functional Requirements :

Requirement ID	Non-Functional Requirement	Description
NFR-1	Performance	The system should process laptop requests quickly and route approvals within 2 seconds.
NFR-2	Security	Only authorized employees and managers can access and approve laptop requests.
NFR-3	Reliability	The system should operate without errors and ensure accurate data capture and workflow execution.
NFR-4	Usability	The self-service portal should provide a simple and user-friendly interface for submitting requests.
NFR-5	Availability	The system should be available 99.5% of the time during business hours for users to submit requests.
NFR-6	Scalability	The solution should handle increased request volume without performance degradation.
